## LANDFILL PROOF ROLLING CAPPING LAYER, CANBERRA, A.C.T.

### MUGGA LANE LANDFILL

<b>Client:</b>	<b>Kenoss Contractors</b>
<b>Location:</b>	<b>Canberra, Australian Capital Territory (Australia)</b>
<b>Machine:</b>	<b>BH-1300 (8t module)</b>
<b>Scope of Project:</b>	<b>Expansion of existing landfill to a second cell to cater for anticipated demand until closure in 2015.</b>
<b>Details of Project:</b>	<b>Preparation of subgrade, partly comprising capping on first completed cell &amp; partly on natural ground/fill prior to placement of synthetic liner.</b>
<b>Performance:</b>	<b>Significant settlement was observed indicating an increase in density, project completed to the satisfaction of all parties.</b>
