

eTyre Roller

eTyre Roller

Developed as the simplest of towed multi-tyre rollers, the eTyre is a versatile general purpose roller. Able to be towed by either grader or tractor it is the perfect tool for both sandy soils and road verge compaction. Nimble in its specifications, but able to impart 4 tonne when fully ballasted. The standard ballast box has a quick pin release for easy emptying and options include flashing amber safety light and solid filled tyres for the ultimate puncture protection.

Standard with LED brake and indicator lights and UV resistant paint, the efficient eTyre is built to Broons' world leading design and quality with a *10 Year Structural Warranty*.

Type	Tare weight (kg)	Max Ballast weight (kg)	Number of wheels	Solid filled tyre weight (kg)	Compaction width tyres (mm)	Length (mm)	Width (mm)	Height (mm)
eTyre Multi Tyre	1,980	4,000	10	520	2130	3170	2400	1370
